

Private Kindergarten in China

This Kindergarten school is under a well-established and well reputed non-profit group of schools funded by a Philanthropist billionaire named Kong Aiju who donated his buildings and other properties to build a new school system that can provide quality and high standard of Education to the young generation of China.

The school is now managed by those who have dedicated their lives to education, compared to other schools; this school focuses on student development rather than on exams or acceptance rate, free of such pressure, the students are educated holistically in a nurturing environment that includes comprehensive and challenging opportunities in academics, creative arts, athletics and co-curricular activities.
